# 2018 ENTERGY TEXAS COMMERCIAL SOLUTIONS PROGRAM

ENTERGY SOLUTIONS
AN ENTERGY TEXAS PROGRAM

## Imagine what your business, school or municipality can do with the savings.

Energy is one of the largest operating expenses facing any kind of organization. The **no-cost** Commercial Solutions Program provides you with the resources to identify energy efficiency opportunities and convert them into actual savings.

Incentives are available for qualifying measures in new construction and retrofit projects. Entergy Texas has partnered with CLEAResult to implement the program.

| Measure | Incentive | |
|---|---|---|
| | Per kW | Per kWh |
| Lighting | $165 | $0.01 |
| HVAC | $250 | $0.02 |
| Refrigeration | $275 | $0.02 |
| Roofing | $250 | $0.02 |
| Custom/Other | $165 | $0.02 |

By joining the Commercial Solutions Program, you can take advantage of these program benefits:

- Technical Assistance to help identify, evaluate and verify energy efficiency opportunities.
- Financial Recommendations to help you understand where you can invest to make a positive impact on your building's energy use, and how to maximize the incentives you receive for your energy efficient upgrades.
- Communications Support to help publicize your leadership and accomplishments in energy efficiency to your community.

The Entergy Texas Commercial Solutions Program has already saved Texas organizations $62.3 million.* Imagine what it can do for yours.

*No products will be sold or installed as part of the program. The program is vendor neutral.*

**Based on the lifetime energy savings of equipment installed and total incentives earned by Entergy Texas commercial partners as of November 2017.*

CASE STUDY

# TEXAS CHILDREN'S HOSPITAL
## THE WOODLANDS, TX

Texas Children's Hospital saved huge with Entergy's Commercial Solutions Program by having LED lighting and high-efficiency chillers installed for a new medical office building, central utility plant and parking garage. The hospital received $91,740 in incentives, greatly offsetting the cost and making the project possible.

### By the numbers

| | |
|---|---|
| 182.52 | Total kW reduction |
| $293,054 | Estimated cost savings per year* |
| $91,740 | Incentives paid |

**Based on installing equipment better than code and saving 3.26 million kWh at a cost of $0.09 per kWh*

# COMMERCIAL SOLUTIONS PROGRAM PROCESS

### 1. Enroll in Program.
Enroll in program by signing Letter of Intent (LOI) and providing an Entergy Texas electric bill and new base vendor form for affected facilities to program team.

### 2. Pre-inspection
Program team documents and verifies existing equipment before removal on retrofit or renovation projects. Before new construction projects begin, partner must submit construction drawings for estimated savings calculations.

*Note: If equipment isn't pre-inspected prior to removal, the program cannot incentivize the project.*

Program team analyzes plans to identify other energy-saving opportunities.

### 3. Incentive Application
Partner must provide project timeline and scope. Program team calculates preliminary incentive and energy savings.

### 4. Construction
Partner implements project and notifies program team of any scope change and of project completion.

### 5. Post-inspection
Program team and Entergy Texas document and verify new equipment installation, finalize incentive and energy savings.

*All projects must be post-inspected by November 15 to qualify for the current calendar year program.*

### 6. Incentive Check
Entergy Texas awards incentives to program partners once their qualifying projects have been post-inspected and verified. The incentives are issued by check or direct deposit, within six weeks after project completion.
